

Installation Checklist

The following checklist will help you track the LMU installation process. Ensure that everything on this checklist is verified before wrapping up.

Record Installation Details		
Device ID		License Plate
Bus ID		Install Date
Odometer		
Power Harness		
Check for tight mounting of hardware and connections		
LMU Position		
Check for tight mounting of LMU		
Label is facing outwards towards sky		
LEDs		
Ensure that both Comm and GPS LED light up solid		
Recorder (Optional)		
Ensure that DVR Firmware is compatible with the LMU		

Service & Support

If your product is to be returned for service, please contact the technical support team, provide the part and/or serial # of your unit, and ask for a Return Merchandise Authorization (RMA) number.

An RMA # allows the support team to better track your product when it comes in for service. Please show the RMA # on the outside of the package.

ANY PRODUCT SENT WITHOUT AN RMA # MAY BE REFUSED!

Documentation and Warranty

This guide along with other documentation and product warranties can be found on the Community website <https://comm.loremipsum.net>

To access **LMU documentation**, scan the QR code on the right with your mobile device.

Contact Support

- Phone: 1-844-XXX-XXXX
- Email: support@loremipsum.net

2002/96/EC (WEEE directive): This product cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return the product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points, for more information, see www.recyclethis.info.
2006/66/EC (battery directive): This product does not contain batteries.

LMU 2630MB Quick Install Guide

This guide provides instructions on how to install and set up the LMU (Location Messaging Unit) model 2630MB (part # VL-XXXXX). This device sends GPS data over cellular networks to an online web server, allowing customers to track the location of their vehicles using software.

NOTE: DVR Firmware Compatibility with LMU 2630MB

When installing the LMU 2630MB with a SF recorder, you'll need to ensure that your recorder has the most current firmware. To confirm your firmware version, please contact Technical Support for assistance.

1 Record Vehicle Installation

Customers and installers should have received an **Installation Record** document (see sample below) with the Device IDs column pre-populated. The Device ID (sometimes referred to as ESN) is a 10 digit number found on the label of the LMU, and is required in order to properly provision and test your device.

vMax Live Plus Installation Record

Fleet ID: **TESTBC01** P/O No.: **1234567** S/O No.: **546321**

Installer Name: _____

1. Record the vehicle (Bus) data in the table below.

	ESN/Device ID	Vehicle ID (Bus No.)	License Plate	Odometer	Notes	Date Installed
14						
15						
16						
17						
18						
19						
20						
21						
22						
23						
24						
25						
26						

Document Part Number 700-0187 R001 Page 2 of 3

If the Installation Record is unavailable, contact the fleet administrator for it or create a form and record the following vehicle information for each LMU Controller that is installed.

Device ID:	Bus ID:
License Plate No:	Odometer:
FDate Installed:	Notes:
